## Triunfo Announces Operational Data for August 2016

São Paulo, September 15, 2016 – Triunfo Participações e Investimentos S.A. (TPIS3), one of the Brazilian companies with the strongest presence in the infrastructure sector, announces its operational data.

### Toll Roads

In the first eight months of 2016, total paying vehicle equivalents reached 120.7 million (+42.5%), mainly due to the start of toll collection at Concebra on June 27, 2015.

To facilitate identification of the impacts of the economic slowdown on our paying vehicle volumes, we have adjusted YTD volumes in 2016 by: (i) excluding traffic at Concebra; and (ii) excluding the impact of toll exemption for raised axles of empty trucks made by the Company. Adjusted volume in the period came to 66.5 million vehicle equivalents, down 3.9% from the same period in 2015.

Traffic on Highways (Paying Vehicle Equivalents)			
	8M15	8M16	Δ
Concer ('000)	17,756	15,996	-9.9%
Concepa ('000)	25,333	24,208	-4.4%
Econorte ('000)	9,222	8,936	-3.1%
Transbrasiliana ('000)	16,677	16,080	-3.6%
Concebra	15,698	55,437	n/a
<b>Total Equivalent Traffic ('000)</b>	<b>84,687</b>	<b>120,657</b>	<b>+42.5%</b>
<b>Total Adjusted Comparable Equivalent Traffic ('000)</b>	<b>69,175</b>	<b>66,454</b>	<b>-3.9%</b>

<sup>1</sup>Excludes (i) traffic at Concebra; and (ii) the impact of toll exemption for raised axles of empty trucks.

Individually, toll road concessionaires registered a decline in vehicle equivalent volume, mainly due to the economic slowdown and the Truck Driver's Law (Federal Law 13,103/2015), which came into force on April 17, 2015, exempting from toll payment the raised axles of empty trucks. The impact of the decline in volume at the concessionaires is offset in revenues through tariff adjustments made to rebalance the agreements.

Note that, in September 2015, the exemption was revoked in the state of Paraná, impacting Econorte. Thus, for better comparison, the concessionaire's adjusted amount for 2015 excludes the impact of the exemption.

PARTICIPAÇÕES E INVESTIMENTOS

## Port Segment

In the first eight months of 2016, **container handling increased 37.1% from the same period in 2015** to reach 587,540 TEUs, mainly driven by the operation of the five new lines secured by Portonave in August 2015 and the startup of the new line secured in June 2016 with a route for Asia.

In August 2016, Portonave recorded **the highest volume of TEUs handled in a single month since its operational startup**, reaching approximately 85,518 TEUs.

Container Handling (TEU)			
	8M15	8M16	Δ
Portonave	428,424	587,540	+37.1%

## Airport Segment

In the first eight months of 2016, 76,800 aircraft carrying 6.2 million passengers and 105,500 tons of cargo, passed through the Viracopos airport.

The decline in cargo volume reflects the challenging economic scenario in Brazil and foreign exchange volatility. Note that, despite the reduction, the Company is continuing with its strategy of focusing on higher-value cargo, which has lower tonnage but higher revenue, besides focusing on continuously improving services provided to clients by reducing the average customs clearance time and by investing on improvements to infrastructure (expansion of cold storage chambers).

The decline in passengers and aircraft reflects the reduction in capacity offered by airlines in the period.

Performance of Viracopos Airport			
	8M15	8M16	Δ
Cargo (ton)	122,898	105,547	-14.1%
Aircraft	85,522	76,777	-10.2%
Total Passengers ('000)	6,976	6,163	-11.7%
Domestic	3,646	2,995	-17.9%
International	392	299	-23.7%
Connections	2,938	2,868	-2.4%
