

Triunfo Announces its Operational Data for February 2015

São Paulo, March 11, 2015 - Triunfo Participações e Investimentos S.A. (TPIS3), one of the Brazilian companies with the strongest presence in the infrastructure sector, announces its operational data.

Highways Segment

In the first two months of 2015, vehicle equivalent traffic reached 19.0 million, down 6.4% from the same period in 2014. Our concessionaries Concer, Concepa, Econorte and Transbrasiliana recorded traffic decrease of 14.3%, 0.9%, 8.0% and 5.8%, respectively

The decline at Concer was already expected and reflects the shifting of the toll plaza from km 104 to km 102. This loss has already been partially compensated through the toll increase approved in August 2014, which came to 12.5%, of which 5.29% was related to the loss and 6.52% to the IPCA inflation index. The compensation for the second half of the loss of traffic will be made starting on August 2015, at the next tariff review.
