Triunfo Announces its Operational Data for April 2016

São Paulo, May 17, 2016 - Triunfo Participações e Investimentos S.A. (TPIS3), one of the Brazilian companies with the strongest presence in the infrastructure sector, announces its operational data.

Toll Roads

In the first four months of 2016, total paying vehicle equivalents reached 60.8 million (+68.9%), mainly due to the start of toll collection of Triunfo Concebra on June 27, 2015.

To facilitate identification of the impacts of the economic slowdown on our paying vehicle volumes, **we have adjusted YTD volumes in 2016** by: (i) excluding traffic at Triunfo Concebra; and (ii) excluding the impact from the toll exemption for raised axles of empty trucks realized by the Company. **The adjusted volume in the period came to 35.1 million vehicle equivalents, down 2.6% from March 2015.**

Traffic on Highways (Paying Vehicle Equivalents)			
	04M15	04M16	Δ
Concer ('000)	8,992	8,015	-10.9%
Triunfo Concepa ('000)	14,060	13,449	-4.4%
Triunfo Econorte ('000)	4,607	4,470	-3.0%
Triunfo Transbrasiliana ('000)	8,359	7,917	-5.3%
Triunfo Concebra	-	26,992	n/c
Total Equivalent Traffic ('000)	36,018	60,843	+68.9%
Total Adjusted Comparable Equivalent Traffic¹ ('000)	36,018	35,086	-2.6%

¹ Excludes (i) traffic at Triunfo Concebra; and (ii) the impact from the toll exemption for raised axles of empty trucks;

Individually, road concessionaires registered a decline in vehicle equivalent volume, mainly due to the economic slowdown and the Truck Driver's Law (Federal Law 13,103/2015), which came into force on April 17, 2015, exempting from toll payment the raised axles of empty trucks. The impact of the decline in volume at the concessionaires is offset in revenues through tariff adjustments made to rebalance the agreements. Note that, in September 2015, the exemption was revoked in the state of Paraná, impacting Triunfo Econorte,

Port Segment

In the first four months of 2016, container handling increased 42.7% from the same period in 2015 to reach 275.691 TEUs, mainly driven by the operation of the five new lines secured by Portonave in August 2015,

Airport Segment

In the first three months of 2016, 38,877 aircraft, carrying 3,1 million passengers and 48,993 tons of cargo, passed through the Viracopos airport.

The decline in volume reflects the challenging economic scenario in Brazil, Note that, despite the reduction, the Company maintained its strategy to focus on higher-value cargo, which has lower tonnage but higher revenue, in addition to focusing on continuously improving services provided to clients by reducing the average customs clearance time and investments in improving the infrastructure (expansion of cold chambers).

The lower volume of passengers and aircraft reflects the reduction in capacity offered by airlines in the period.

Performance of Viracopos Airport			
	04M15	04M16	Δ
Cargo (ton.)	62,285	48,993	-21.3%
Aircraft	43,490	38,877	-10.6%
Total Passengers ('000)	3,554	3,112	-12.4%
Domestic	1,861	1,522	-18.3%
International	187	162	-13.1%
